KAMEYA

JEWELRY COMPANY

- Golden jewelry with amber is a unique handmade work of art which can't be repeated. We recommend you to purchase the full set which was produced from a single piece of amber. If you purchase only a single article (earrings for example) then you will not be able to complement your decorating even if you wish.
- For our handmade golden jewelry we use only natural amber, so the repetition of color, texture, characteristics of amber in various products is very difficult to achieve.
- Our customers say that only we who can feel this warm stone so subtly and gracefully complement it with precious metal.

- For serial golden production with amber inserts we use only natural stones. Cabochons - inserts into the earrings, beads, rings, necklaces – are riding manually. It is a complex process which is different about the treatment of other stones because of amber's nature.
- We do not dyeing our amber chemically: the color and further inserts (bubbles, rainbow segments) are achieved by heat treatment.
- Technology and modern production equipment enables us to offer our customers the highest quality of product, which is stable at regular deliveries and high volumes.

- Headset from the “MODERN” collection made of blackened silver and natural piece of amber.
- Sets equipment is different: each set is presented in a single copy because it uses a unique stone, so set depends on the size of the selected stone (necklace, bracelet, earrings, pendants, rings).
- When choosing jewelry from this collection we recommend you to purchase the entire set because the repetition of the product can't be due to the stone selection complexity.

KAMEYA

JEWELRY COMPANY

- Silver jewelry with amber is a perfect choice for those who like to play with their own style, try different models and choose. We offer our partners and customers a wide range of silver jewelry.
- Cool metal color and its noble shine are gorgeous pair for warm, sunny amber. Pay attention to the excellent suspension and sets of handmade silver products with amber. Select the desired color of amber inserts - cognac, green, honey, lemon or white - in serial products.
